

I like to bat, feed, speak 2 much!
Seek ways out of defeat differently,
befriend sea monsters & such.
Best leave belief, that front, build
the nocortex without deceive,
my hunch. Let my body take precedence
to thinking time I'm in love, seek ease.
Play without fanning the essence,
Neither man nor woman below or
above unless it's tussling. Can
we include others and creatively
wonder out the fussing?
I imagined synchronized
shuffling, amblerous
correspondence. Then
again, better to fantasize
& let folk's hustle our
humping, exponentially
Numerically.
